**Synopsis**

Here’s everything you need to review, simplify, and understand the most important concepts in AP Comparative Government and Politics. This must-have guide focuses on an in-depth study of the governments of six nations: Britain, Russia, China, Mexico, Iran, and Nigeria. Topics of study, test practice, and review information include:

- Introduction to Comparative Politics
- Sovereignty, Authority, and Power
- Political Institutions
- Citizens, Society, and the State
- Political and Economic Change
- Public Policy

One diagnostic test
Two practice tests
All questions thoroughly answered and explained

The first six chapters address general concepts with illustrations about specific countries. The final six chapters address each of the six countries individually and are organized by the six topics of study as headings within each chapter, making it easier for test takers to find the information they need to prepare and succeed on this Advanced Placement test.

**Customer Reviews**

I read this book to review the few countries that I felt I didn’t understand as much before the AP test and this review book had amazing charts and graphs to help facilitate understanding. I honestly think that this book helped me get at least a 4, maybe even a 5 on the AP Test. I highly recommend this review book for any student in the Comparative Government course.

This book is beautiful! You will pass with this book as your study guide for the test. Reading through all the chapters I now have extensive knowledge of these countries and I recommend it to all
students taking this class!

Great book! I love how straightforward it is and the info is so up front and doesn’t mess around with irrelevant details. Excellent study tool for the exam as well as the class itself.

Excellent review book, uses clear details, and then follows up with easy-to-understand and concise examples to further show author’s point. Highly recommended.

Great book. Covers each of the countries very well and is easy to comprehend!

Honestly, the book is decent enough for someone who already have a strong background in related fields. The AP exam won’t ask you obscure details that nobody knows such as "describe the legislative process in Iran and contrast it with that of China". Take it or leave it, this is the only choice

An amazing and helpful book!
