I had to purchase this book for a class I'm taking. It's riddled with inconsistencies, hard-to-follow timelines that often contradict each other, and spelling/wrong word usages. Unfortunately this class requires reading the entire text - which I hate for these very reasons. Examples: pg 13 - "The liberal agenda ended in the 1990s and was followed by the get-tough approach... The get-tough approach continued into the 1980s." pg 53 - "Today the object of criminal punishment can be grouped into seven distinct areas: general deterrence, specific deterrence, in capitation..." pg 66 - "Several studies have found that collective efficacy does function to mediate..." pg 66 - "the McArthur foundation has spent another works $23.6 million..." pg 85 - "...was strongly related to female desistance. Instead, demisters..."
It's a school book. It does it's job. If you need it for school, you better buy it. Worked perfectly on my Kindle.

Great book. Definitely keep it on your shelf because it has easy directory

I agree with the earlier reviewer... This text contains a copious amount of inconsistencies, spelling mistakes and grammatical errors. Is it possible this edition was published before a final edit?!

I thought the book was very informative and up to date. Criminologist and Criminal Justice students would benefit from this book.

I learned a great deal of information from this book, it’s a very good read!

Textbook. It fair and informative as it’s suppose to be on it’s subject.
