**Customer Reviews**

This book frustrated us until we realized that pages 19 and 20 were each missing two rows of letters. We could not complete all words because of that defect. A bit angry that such poor quality workmanship exists. Also had a foul word to search that should never have been used.

the large print book has puzzles that are more difficult as well as easier to read. somewhat of an advanced book over the small print .

Fairy simple and easy puzzles. Still good to get the brain thinking

Perfect for me. This book is great for large print.
