Customer Reviews

If you want to solve US crosswords this book is no good it is not primarily a book of synonyms. However, if you want to do cryptic crosswords this is a must for all such cruciverbalists.

I have an early edition of this book and have used it so much it is literally falling to pieces. I was unable to obtain a copy in Australia. The copy I received from is excellent, better bound and

appropriately updated. I am delighted with the product, price and the service. It was delivered 3 weeks ahead of schedule. 5 Stars!

Purchased this for my wife who needed a replacement for a MW Crossword Dictionary due to lots of use thinking the Bradfords would be newer and be more up to date with info. To say the least she tried using the book on numerous occasions and never found the answers she needed so it sits on the shelf collecting dust. There must be better options. I'm ordering a new MW today.

There are an enormous number of words but I didn't always find the appropriate word to be able to solve my crossword. Case in point, today: I looked up Lustful and the word needed was 'Randy' but it wasn't there. Anna Stivala

The first page says "To search at any time, use the dictionary search box at the bottom of the page, enter your clue word and target letter count, and select 'Search Dictionary'. When I use the Dictionary on my Android there is no such search function. I have reloaded and still it does not appear. I am using a Samsung Galaxy Nexus.

it is a good quality book for puzzles we have has one for years and this is a replacement book
