A very good hands-on approach to Native American history, but we modified it a lot for our use because we wanted more depth. This could be open and go, if you just wanted a brief overview of 6 tribes of the Americas with some simple hands on activities for young elementary aged children. We used the History Pockets: Ancient Civilizations before this and my children found it to be too much cutting, pasting and coloring for them, so this time we went through each tribe and took a pick and

choose approach, rather than a do it all approach. This worked very well and we had a lot of fun, but I wish that they had included a list of recommended books to go with each tribe. We skipped the Maidu completely, because our local library didn't have any books on that tribe, and added the Cherokee since they live nearby to us. This book included a little more writing than Ancient Civilizations, which I liked as my children are a little older and ready for this type of learning activity. For the Inuit, one activity was to tell/write a story the way that they did in the long winters, and for every tribe they wrote definitions to 3 words. Other activities included making a Navaho style necklace and a Seminole style headdress. And we supplemented it with many other books, to make it a month long unit study. Our top contender for supplementing was Draw Write Now Book 3 by Marie Hablitzel : which aligns with the Iroquios and Lakota Sioux, and with a change in tribe name you can us the page on Haida for the Tlingit and change the Hopi to Navajo.
