The End Of Tsarist Russia: The March To World War I And Revolution
Synopsis

An Economist Best Book of the YearA Financial Times Best Book of the YearWinner of the
the Pushkin House Russian Book PrizeFinalist for the Lionel Gelber PrizeAn Best Book of the
Month (History)One of the worldâ€™s leading scholars offers a fresh interpretation of the linked
origins of World War I and the Russian Revolution"Lieven has a double gift: first, for harvesting
details to convey the essence of an eraÂ and, second, for finding new, startling,Â and clarifying
elements in familiar stories.Â This is history with a heartbeat, and itÂ could not be more
engrossing." â€” Foreign AffairsWorld War I and the Russian Revolution together shaped the
twentieth century in profound ways. In The End of Tsarist Russia, acclaimed scholar Dominic Lieven
connects for the first time the two events, providing both a history of the First World Warâ€™s
origins from a Russian perspective and an international history of why the revolution
happened.Â Based on exhaustive work in seven Russian archives as well as many non-Russian
sources, Dominic Lievenâ€™s work is about far more than just Russia. By placing the crisis of
empire at its core, Lieven links World War I to the sweep of twentieth-century global history. He
shows how contemporary hot issues such as the struggle for Ukraine were already crucial elements
in the run-up to 1914.Â By incorporating into his book new approaches and comparisons, Lieven
tells the story of war and revolution in a way that is truly original and thought-provoking.

Customer Reviews

Lieven might be the last Western historian combing the Glasnost freed Russian history of the six
major archives including the rich basements of Moscowâ€™s Foreign Ministry. The archives closed,
perhaps forever, the week after Lieven completed the extensive research applied to this book. The new research makes this an important book30% of this telling visits historical 'global strategy' (now known as 'globalization'). 20% is an intermediate level look through the thoroughly Russian mindâ€™s eye in response to events between 1904 and the Russian Revolution. The remaining 50% is Lievenâ€™s âœwormâ€™s eye viewâ€• from a thoroughly Russian perspective in action. A Western readerâ€™s preconceptions might be turned by the head to visualize Russian thinking. Lievenâ€™s narrative is rewarding and unexpected. Here is the story of Russia, directed by Russians, or more specifically, the Muscovite central authority. Itâ€™s a story that connects the dots into the pattern that defined the 20th century and, at least to this reader, screams the 21st where the author only ventures in the last chapter. Lievenâ€™s excursions into âœunexpectedâ™ vignettes are mind fodder. An example is the way Lieven includes a node of European and Russian world strategy deeply affected by the US Civil War and its portents within global realpolitik. The 'split' in the American 'empire of manifest destiny' is revealed as a reference point to high reward/high risk realpolitik calculus that might be worth it. Western European empires grew increasingly eager to throw in with the Confederacy after 1862's victories with all eyes on economic gain and South American recolonization by sweeping up the weak Spanish/Portuguese tradition states in a fresh round of African-style land grab â€• if the Confederacy was to succeed.
