Synopsis

The fourth edition, written by respected scholars and experienced educators, includes both classic and new materials. The book presents traditional topics in historical and empirical context, and it adds new and provocative materials as well as relevant theoretical and background readings. The procedural and nonprocedural aspects of the cases are thought-provoking, to hold students' interest. Each chapter contains a well-written introduction, cases, and clear explanations of the doctrine, supported by comments and questions which deepen students' understanding and clarify key concepts. The book includes more than forty well-crafted problems (both for class use and review) to help students solidify their understanding of the materials either in class or as out-of-class assignments. In-class exercises and simulations based on two sample case files are integrated throughout. Product exactly as described. Great communication. Fast shipping. Thanks!

Excellent!

This is the worst book I have ever had to read. Incredibly dry and boring, and incomprehensible to add to that.
