Uniform Commercial Code (Hornbook)

Synopsis

The book will give students a rigorous introduction to the UCC without burdening them with needless citations. The new edition deals not only with the 1999 revisions to Article 9 but also with the recent revisions to Article 1. Of course, this edition also addresses the earlier revisions to Articles 5, 3 and 4. It has limited coverage of the failed attempt to revise Article 2.

Customer Reviews

This reference text guides you through the Uniform Commercial Code. As we all know, it can be cumbersome. This reference text is an essential piece the legal field puzzle.

I've bought this book twice for different editions, 5th editiond was the required when I studied at Duke Law.I bought 6th edition because of work-need, the latest one is really detialed!The only one I don't like about this book is that this book is too big and heavy...I would be great if it can be separated into two episodes.

Can't rate it any other way because it is a required book for my course.
