Training People: How To Bring Out The Best In Your Human

Synopsis

For centuries, dogs have known that they, not humans, run the show. But not all dogs know how to get the best from their people. Finally, from the leading expert in the field comes a straightforward, easy-to-use manual that's written for dogs by a dog. This indispensable reference provides foolproof advice on obtaining everything a dog deserves, from the best food and exercise to grooming and chauffeur services. Here are all the tools a dog needs for selecting, training, and living with a well-behaved human.

Customer Reviews

Very funny book, and unique perspective on the dog-human relationship. Had me laughing out loud in several sections, especially as my own dog has trained me on some of Tess's same lessons. Also insightful to many human quirks, and how our habits are viewed from the dogs' perspective. Great gift for dog lovers, and keep one for yourself.

This book is a tell all. Tess, a lab owned by Brian Kahn exposes the way she shamefully manipulates him. She shares all the well know secrets and some not so well known about how dogs, under the guise of being pleasers in fact run the homes they live in. I must concede she does so with wit and charm. This is a fun book.

This book will bring a smile to any dog owner's face. Very well written.

If you have a labrador, this is a must-read. My dog "trained" me in much the same way that Tess apparently trained her owner. The commentary from the dog's perspective is very clever - I especially loved the section on taking walks. According to Tess, humans' lack of a sense of smell causes us to walk in a straight line and miss out on much of the richness of the world.

Fun for real dog people - good pictures. The author (Tess is a dog) seems to have an excellent understanding of her subject, although some of her training techniques are a bit harsh, but then she lives in Montana. I keep it hidden from my dog and so far this approach has managed to keep both of us untrained.

gr8 present for dogloving friend she loves it and its so cute and even the shape of the book (curved a bit at the edges) is cute and nice. i didn't read it cos i didn't wanna bend the pages but she's way into it so get it! i read so many dog book reviews and i think this one really was great for her! she's fond of many dog books already

Highly recommended. All dog owners and lovers should read this book. It turns obedience training and dog ownership on its head and looks at our relationship with dogs from their point of view. Riotously funny and extremely wise. Useful too, it makes you stop and realize what your dog must be thinking, and how to better achieve your goals with them.

As the proud servant of a husky puppy, I had so many questions of why he chose me to be his human. I suppose it was my hiking boots he liked when I offered myself for selection. This book has helped me understand how best to serve my owner. But really, this book is hilariously witty.
